

CABIN-CLASS PROGRAM

Booking a flight has never been easier! With Cabin-Class, just call Executive Jet Management (EJM) with your itinerary and preferred aircraft size and we'll provide the perfect fit for your travel needs. One call is all it takes – you can book your flight immediately and that price is guaranteed. Yes, it's that simple.

- Consistently priced quotes that are guaranteed
- Immediate booking
- Guaranteed aircraft availability once you book your flight
- Highest safety and service standards in the industry

The Cabin-Class program was developed in response to clients who require guaranteed pricing and a fast, easy process to book their jet charter travel.

IDEAL SITUATIONS TO USE CABIN-CLASS PROGRAM:

- You want to be able to predict costs for travel
- You know you're going to fly and want the fastest, easiest way to book your flight
- You are traveling one-way or are staying at your destination for more than a few days
- Aircraft availability is a concern

HOW IT WORKS:

1. Provide your itinerary and preferred aircraft size to one of our Charter Services Representatives
2. Receive a consistent rate for a given size airplane: small, mid, super-mid, large, or heavy
 - The price you receive is the hourly rate multiplied by the number of hours you need to book
 - Hours are point-to-point, i.e., departure-to-destination
 - The quote is guaranteed for 48 hours
 - No up-front payment is required
3. Book the flight and we'll find the airplane that fits your needs
 - Guaranteed availability, i.e., once you book the flight we promise to make it happen
 - The Cabin-Class program takes advantage of the same award-winning EJM fleet that has been setting the standard in private aviation since 1977

This 1-2-3 process is simple and lets you more easily take advantage of the safest fleet in the industry and the finest service available in private aviation!

For aircraft currently available in this program, see reverse.

CABIN-CLASS PROGRAM

Rates include the December 2018 fuel rates and 7.5% Federal Excise Tax.
The fuel rate is adjusted monthly based on business aviation published market Jet-A fuel.
