

TY DUBAY

President
NetJets Business Aviation Limited
(Hong Kong) Limited

Dubay earned his degree in mechanical engineering from Rose-Hulman Institute of Technology in 1997. He began his career at GE Aircraft Engines in Evendale, Ohio on the Technical Leadership Program (TLP). While working with the TLP Program, Dubay successfully earned a Master of Science in mechanical engineering from the University of Cincinnati. After working in gas turbine design engineering, Ty transferred to GE's aircraft engine maintenance terminal business, and then to quality department where he focused his efforts on helping GE's global Maintenance, Repair, and Overhaul (MRO) facilities to improve the quality of their products and services. While working for GE, Dubay earned Six Sigma Green Belt and Black Belt certifications and is a certified ISO Auditor.

Dubay joined Executive Jet Management (EJM) in 2003, where he managed the operation of six Embraer aircraft in a customer-specific shuttle venture. Upon his return to Cincinnati, Dubay assumed responsibility for Dispatch of EJM's fleet of business aircraft. He was promoted to positions of increasing responsibility and eventually accepted a position on the EJM Executive Management Team overseeing Operations Planning. Operations Planning is mainly responsible for supervising the performance of aircraft management assignment, flight-related services, environment programs, travel services, fuel and oil management, catering services, ground transportation service, New York White Plains facilities, guest services, technical publication, safety and security, and quality management system.

Dubay joined NetJets Business Aviation Limited in 2011, serving as Supervisor to the Board of Directors where he was able to leverage his personal experience and NetJets' 50 years of experience in business aviation. Dubay was promoted to company President in 2012, and dispatched to work in Hong Kong.
